About the wine tour:

Welcome **UNDER THE SKY OF SOUTH SAKAR** - an unforgettable wine experience, organized in partnership between Odyssey-in & Via Vino and Vino Orenda!

Mysteries, dolmens and ancient sacred places; our exciting wine travel destination is an area where three countries meet - Bulgaria, Greece and Turkey.

But it is also a land blessed for wine-making - a mild winter and hot, dry summers are typical for South Sakar. Plenty of small, family wineries with enthusiastic and friendly winemakers are adding a unique charm to the region. Their hard work is resulting in wines full of passion, warmth, sun... The “people behind the label” will personally share with us their stories and we will taste together their wine treasures combined with delicious local appetizers and homemade meals!

Some wine professionals are asserting that South Sakar is the best place for cultivating of vines in Bulgaria, especially Merlot and Syrah! But the locals believe that Rubin, Mavrud and Cabernet Franc are the next stars... Let's check it by ourselves!
